Detailed Itinerary

Day 1: Phu Quoc Island Fishing & Snorkeling Tour In The South

A journey of discovery into Phu Quoc's rich marine life in the southern part of the island. Watch and learn how oysters are carefully cultivated to become precious pearls, then spend time both directly above and below the sparkling sea, fishing and snorkeling amongst colorful fish and coral. You will be picked up right at your hotel in the morning, proceed with the tour following the organization of a resourceful guide, then return to where you stay within a day. Let's preview the list of interesting destinations for your better imagination. Pearl Farms were built up in quite a number of facilities, which is out of surprise since Phu Quoc has been being labelled "The Pearl Island". The pearl farming industry here has been spurred on with the help of pearl farming techniques from various places around the world, thereupon, fined off pearls are considered the favorite merchandises for export, also the wanted wares to consume domestically. During the visit you'll gain fascinating insight into the process of oyster cultivation which turns it from simple oyster to beautiful jewelry. Next, we'll hop on board a boat to some stunning offshore islets where you'll have the opportunity to try fishing and snorkeling in beautiful sea. Lunch will be served on board. At the end of your southern sea adventure we'll drop you back at your hotel. Islets offshore Phu Quoc possess incredible transparent, turquoise seas. The waters are also blessed with coral reefs and tropical fish of various shapes and colours. This is why it is always a good idea to swim, snorkel and scuba-dive here, though relaxing and lounging by the beach are also the great ways to spend time.
